SUPERVISORS HOLD REGULAR MEETING

SUPERVISORS REFER MATTER OF EXPOSITION MUSIC TO DEVELOPMENT ASSOCIATION.

Members Will Go to the Fifth Township in a Body and ascertain Its Road Needs.

The Board of Supervisors met in regular session Monday, November 20th, there being present P. H. McEvoy, presiding. Wm. H. Brown, Jas. T. Casey and Jos M. Francis.

The minutes of the previous meeting were read and approvd.

A petition was received from Alfred Schlienger of Colma asking permission to maintain a hog ranch in the Seventy-five Dollar Lot Tract at which shall be kept 250 hogs, the same to be fed with swill procured in San Francisco. The hogs will be confined in elevated pens which shall be properly drained and made sanitary.

The petition was laid over until afternoon for reference to the district attorney.

A communication was received from Public Administrator Plymire notifying the board that Charles Rodriquez, a county indigent of Pescadero who died recently, had a son living who was qualified to administrate on the estate of his father and that this matter did not come within the jurisdiction of the county administrator.

The communication was received and filed.

A certified copy of a resolution adopted by the supervisors of Madera county urging the State Highway Commission to construct a road into Yosemite Valley, was received and filed.

Reports were received from the motorcycle patrolmen as follows:

George Lowans, First township—Worked 14 days, one arrest and one conviction, fine $15.

M. F. Brown, Second township—Worked 14 days, 12 arrests and 7 convictions, fines $70. Cases pending 2, sent to San Francisco for trial, 3.

T. Martenstein, Third township—Worked 14 days, 2 arrests and convictions, fines $30. On November 11th worked in conjunction with Officer Brown, 7 arrests, fines $105.

But one bid was received, that of Neils Grouloff, for excavating the drain at Fair Oaks, in accordance with the public notice and offering to complete the job in twenty-five days at a cost of $975.

The bid was laid over for later consideration.

The petition presented at the last meeting from residents of Higgins school district asking that a portion of Halfmoon Bay district be annexed by the former district was taken up for action.

School Superintendent Cloud addressed the board in behalf of the petitioners, stating that they represented three families who reside close to the Higgins school yet being within the Halfmoon Bay district. If their children were compelled to attend the latter school they would have to travel three miles. He had served notice on the trustees of Halfmoon Bay and had received no protest against the petition.

Supervisor Francis stated that he was familiar with the change desired to be made in the boundries and as far as he could ascertain there was no opposition to it. The matter was continued until afternoon to prepare necessary resolutions.

H. C. Tuchsen, representing the petitioners of Greersburg school district who desired to annex a portion of Portola district, stated that the petition would be withdrawn and the matter dropped.

On motion of Casey, seconded by McEvoy, the petition was permitted to be withdrawn.

The following resolution accompanied by a communication was received from the Redwood City Merchants' Board of Trade:

"Whereas, this Board has reason to be proud of the new county court house recently completed in our city; and

"Whereas, we believe that attention should be attracted to the same on all occasions, day and night, and in every way; and

"Whereas, the front entrance is ornamented with electric light fixtures which show to advantage during the day time, and which, if lighted at night, would prove an attraction to the general public and to strangers:

"Now, therefore, the Merchants' Board of Trade of Redwood City does hereby resolve as follows:

"That we request the Hon. Board of Supervisors of said County of San Mateo to cause to be lighted each night, for such hours as it may deem advisable, the lamps at the front entrance of said Courthouse, believing that this can be done at little or no expense to the County, and that the slight expense will be more than compensated by the advertisement which the County will receive and the benefits which the people will derive therefrom."

Brown moved that the request of the Board of Trade be granted and that the lights be kept burning each night until after the arrival of the theatre train at 12:33. The motion was seconded by Casey and carried.

Charles N. Kirkbride asked that the board take action on the petition presented at the last meeting, advocating the formation of a county exposition band.

The chairman stated tnat he personally was not in favor of the plan because the exposition was too remote at this time; and for the further reason that he did not believe that the board was authorized to expend the money necessary to finance the undertaking, it being his opinion that a commission would be created to handle the exposition money.

Mr. Kirkbride spoke forcibly on the subject of a county exhibit and urged that steps be taken at once to prepare for the great exposition and share in its benefits. He considered the band feature an excellent one.

Charles M. Morse spoke strongly in favor of the band and urged the board to consider the undertaking favorably. He dwelt on the uplifting benefits of music and said that such an exhibit at the great exposition would draw more attention to San Mateo county than any other agency. Mr. Morse thought the idea of a commission to handle the county's exposition money a good one but no time should be lost in getting the movement under way.

After some further discussion Casey moved that it be referred to the Board of Governors of the Development Association to be reported on at the next meeting. The motion was seconded by Brown and carried.

The chairman stated that after investigation he found that the bid of Neils Grouloff for $975 for excavating the waterway at Fair Oaks was a reasonable one and asked that it be accepted by the board, which action was taken on motion of Francis, seconded by Casey.

Surveyor Neuman presented plans and specifications for the excavation of the water way at Fair Oaks which were accepted on motion of Blackburn, seconded by Francis.

Deeds, accompanied by a map were received from Jennie C. Cottrell, Timothy Hopkins and the Western Shore Lumber Company, granting the county a right of way forty feet wide through their land in the Fifth township for a road into the State Redwood Park.

On motion of Blackburn, seconded by Francis, the deeds were referred to Blackburn and Surveyor Neuman.

County Clerk Nash presented and read to the board a communication stating that the county surveyor has neglected to correct the precinct map furnished the clerk's office by said surveyor or to have printed several blue prints for the use of registration deputies throughout the county, notwithstanding the fact that said county surveyor had been notified of the board's order made and entered on the 6th inst; and that the non-compliance by said county surveyor with the order of the board was holding back the registration of voters in different parts of the county. The county clerk requested the board to give this matter its attention. Whereupon County Surveyor Neuman addressed the board and stated that he would have the work ready by Saturday and upon the clerk being asked by the chairman if this would be satisfactory to him replied that he supposed it would have to be so. He also stated that he had spoken to the county surveyor sometime in advance of the order made by the board on the 6th instant and that the surveyor was cognizant of the errors made by him and of the delay he was causing in the work of the clerk's office for over a month.

The clerk then asked if said work was not done by Saturday that he be given permission to hire some competent surveyor from outside of the county who would do the work at once.

The application of Alfred Schlienger for a permit to maintain a hog ranch at Colma, and other unfinished business was continued until the next meeting.

Attorney Lee Ross, representing Issac Newton Gill, presented a map of Subdivision 3 of North Fair Oaks. The streets and avenues of same were accepted for public use by the usual resolution adopted on motion of Blackburn, seconded by McEvoy.

There was a discussion regarding automobile charges and it was decided that the board constitute itself a committee to investigate this subject and arrange a reasonable scale of charges for adoption by the board.

Claims aggregating $2600 were presented for culvert pipe in the Fifth township. This fact gave rise to a charge by the other members that Blackburn was appropriating more than his share of the General fund for his district.

Blackburn explained the road conditions in his district and invited the board to come to Pescadero and see what work is actually necessary to be done htere.

It was agreed to visit the Fifth township in a body on a later date.

Claims aggregating $237.50 for the service of assistants to the county surveyor were laid over for examination.

School Superintendent Cloud presented a resolution authorizing a change in the boundaries of Halfmoon Bay school district by which lots 16 to 28 inclusive of the Johnston tract are annexed to Higgins district. The resolution was adopted on motion of Francis, seconded by Casey.

HARRY McCUNE, FUGITIVE CHARGED WITH CRIMES.

Harry McCune, an 18-year-old boy, is believed by the officers to be a criminal of the deepest dye. McCune was employed at John Lown's fruit store on Broadway and Sunday night he left town and simultanfous with his departure $350 disappeared from the Lown residence on Stambaugh street.

Mr. Lown had the money in his possession intending to go to San Francisco Monday morning and pay some bills. It is thought that McCune watched him through the window and saw where he placed the money before retiring and when all was quiet he entered the house by a rear door and abstracted the coin from a bureau in Mr. Lown's room. It was a daring robbery and worthy of a skilled housebreaker. McCune is also suspected of having stolen a shotgun from the room of Claude Fox in Mrs Sears' lodging house on Main street, as that article was not seen after Sunday night. The suspect was a roomer at the same place.

Before coming to Redwood McCune was living with George Harkins on the mountain near King's place. One night a month ago when Harkins returned home from Redwood, after having collected a large sum of money, and was about to enter his home, a rifle shot was fired at him through the door, the bullet just grazing his arm. Being unarmed he fled to the woods and concealed himself for a time. Later when he went to the house he found McCune there and when he examined his refle there was an empty cartridge in it. Harkins is certain that the attempt to murder him was made by McCune who knew that he had money in his possession, but he had no direct evidence to that effect.

McCune is suspected of other thefts and the officers were shadowing him when he disappeared from town. A good description of the fugitive has been sent to the officers of nearby counties.

RELIEF CORPS LADIES ARE PREPARING ENTERTAINMENT.

The committee in charge of the entertainment of Gen. Geo. S. Evans' Relief Corps to take place at the Alhambra January 6, is hard at work, and tickets are now on sale. Old time songs and dances will be the features of the evening.

Every one should be interested in this event, as the proceeds will be used toward the entertainment of the children who march to the cemetery next Decoration Day. This has been omitted for a number of years past owing to lack of funds, and it is hoped that the public will appreciate the patriotism shown by the children, in a large attendance at this entertainment.

RELEASED FROM PRISON MUST FACE SECOND CHARGE

Arrested just as he was emerging from the gates of San Quentin prison Saturday after two years of servitude for forgery committed in this county, W. O. Peery was taken to San Jose and will be prosecuted on a charge of forgery preferred by E. C. Prindel in Justice Walloce's court on February 25, 1909. Peery forged a check on the San Mateo Bakery in February of 1909 for which crime he was convicted and sent to San Quentin for two years.

He admits the second charge but says he was drunk at the time and asks that leniency be shown. Peery was a young attorney of promise before his downfall.

A LOGICAL SELECTION.

Governor Johnson is to be congratulated on his choice of a man to fill the vacancy in the office of State Printer. By all arguments of reason and expediency Friend W. Richardson was the logical candidate for the place.

From his long experience at the business, he is throughly familiar with every detail of both the technical and practical management of a printing establishment. His success in the conduct of an establishment of considerable magnitude as a private enterprise is a guarantee of his business ability and aptitude as a manager.

What is particularly needed at this time in the office of State Printer is a man in whose ability and integrity the people of the entire state have confidence. Certainly no man could more thoroughly fill these important requirements than does Friend W. Richardson.

School Attendance

Attendance in the schools of San Mateo county for the past term has been better than ever before in the history of the county. The late legislature raised the age of compulsory attendance to 15 and the age at which grammar school pupils might be excused upon proper application, 15 to 16. Six of the school districts of the county have employed special officers who see that all of the children of their respective schools are in attendance, while Michael Sheehan, the county probation officer has responded to a number of calls from unofficered districts and has enforced attendance there. It is safe to say that there are very few children under the age of 15 who are not now regularly at school.

It has been necessary to bring but one family before the Juvenile Court for non attendance and at that hearing which took place in the judge's chanbers last Saturday the girl who is nearly fourteen was excused for the present because of defective sight, she having a doctor's certificate to prove that fact. The officers in the districts have been instructed to bring any case of non-attendance before Judge Duck who will deal with them according to their respective merits.

ANOTHER EARLY PIONEER GOES ON LAST JOURNEY

Another of the pioneers of San Mateo county who assisted in establishing this commonwealth has passed away in the person of W. W. Durham, who died at the Martha Norman Sanitarium of this city late Thursday evening. The deceased had been failing in health for a long time past and of late had become very feeble. Mr. Durham was born in New Jersey 80 years ago. He came to Redwood City in 1853 and for a time drove an ox team and built a cabin near the present site of Dingee Park. In 1857 Mr. Durham and his brother, Thomas G. Durham preempted a large tract of government land back of Woodside and it was this ranch that the deceased resided on until a few years ago. He manufactured shingles and conducted a lumber mill in the early days and by industry and frugality accumulated a neat fortune. In the sixties he married Miss Josephine Bonaparte Ralston of San Gregorio, sister of Enos Ralston. She died about three years ago. Mr. Durham was a man of strict integrity and honesty, a characteristic possessed by many of the pioneers. The deceased is survived by four children, Charles, and Frederick Durham, Mrs. John Kelly and Miss Bertha Durham and a brother, Thomas G. Durham of this city and Mrs E. S. Beebe of Purissima. The funeral will take place this afternoon from James Crowe's undertaking parlors at 2 o'clock. Interment will be in Union cemetery.

City Council Adopts Suggestions of Board of Trade for New Street Lighting Plans

Unless some unforseen accident occurs to prevent, the advent of the Christmas holidays will witness a vast improvement in the lighting of the main avenues of travel through Redwood City, placing the community on a par with the most progressive cities of the peninsula. At the meeting of the city council last Monday evening, which was attended by all the trustees except Mr. Brown, who was ill, the plans suggested at the recent meeting of the Board of Trade for remodeling the street lighting of Broadway and Main street was approved. The trustees needed but little urging from H. C. Tuchsen and Dr. R. Stafford, who were present as representatives of the merchants' organization, and in fact showed a desire to push the matter to an early conclusion and to secure an attractive and artistic arrangement of the lights. Chairman Merrill suggested that the proposed arrangement migh be maintained with but little if any increase in expense, and urged that there be nodelay in making the changes which all admitted would be of material benefit to the city. Evidently considering the matter of sufficient importance to warrant rush work, instructions were given to City Electrician Werder to give immediate attention to the changes. For the present the new lights will be installed on Broadway from the County road to Main street and on Main to the railroad crossing.

Monthly reports were submitted by all of the city officials and were approved and ordered filed. City Treasurer Towne reported that after an expenditure of $1454.04 during the present month and the settlement of an overdraft of $475, there is now a balance of $5118.85 in the general fund. The receipts of the month were as follows: Licenses, $62.00; special permits, $12.50; water connections and meters, $92.50; taxes, $6881.25. The receipts for the water fund amounted to $987.50, which after the pay ment of an expense of $898.77 leave the fund with a balance of $898.77.

Balances in the special funds are as follows. Phelps street extension, $1905.14; storm sewer, $4818.35; city hall, $9116.15. The improvement districts were reported to have balances on hand as follows, the greater portion of which is represented by uncalledfor warrants: No. 9, $151.75; No. 14, $372.80; No. 13, $1493.57; No. 16, $2723.49. Some little surprise was expressed at the number of uncalled for warrants in district 13 and Clerk Plump was directed to send out personal notifications to owners of unclaimed warrants.

The surprise of the evening was a petition for the laying of plank side walks. This savored too much of retrogression for the trustees and they decided to give the petitioners a lesson in modern improvement by ordering the construction of concrete walks in several sections. The new order includes both sides of Phelps street from Cedar to Manzanita, Jackson street from Franklin to Pennsylvania avenue, and the walks surrounding the Dingee Park ball grounds.

President Tuchsen of the Board of Trade stated that the executive committee of that organization still had under consideration the proposed street railway franchise and desired further time for action. On this request the council ordered consideration of the matter postponed until the next meeting. Street Superintendent J. C. Dickey was given authority to construct temporary plank walks to the approaches of the Center street bridge. These will be used to provide passage to the new city hall from Main street until the filling of the new street is completed.

Petitions were read by City Clerk Plump asking for the extension of the city lighting system to Vera and Lincoln avenues and for the installation of a light on Chestnut street at the railroad crossing. Both will be arranged as soon as the necessary lines can be placed. In order to provide for extensions the clerk was instructed to call for bids for furnishing a car load of cedar poles. These bids fill be opened at the meeting ion December 18th.

Mrs. Robert Brown, president of Redwood City Chapter of the National Red Cross Association presented a request that the council continue its annual custom of the purchase of Red Cross Christmas stamps. Clerk Plump was given authority to make the usual investment of $5 for this purpose, the stamps to be attached to all city correspondence.

A communication was presented from the Board of Supervisors of San Francisco asking for the appointment of a committee from the council to co-operate with a joint committee of the municipalities of San Mateo and Santa Clara counties and San Francisco in urging upon the State Highway Commission the construction of a road from San Francisco to San Jose. On motion of Trustee Sampson, Chairman Merrill and Trustees Beeger and Hynding were named as the committee.

Contractor A. Hess asked the council to approve the specifications of a private contract for the macadamizing of Jackson street from the County Road to Adams street. No provision is made for the oiling of the surface of the roadway, which it was stated could not be done to advantage at this season. After some discussion on this point the specifications were approved with the understandng that oil would be spread later at the expense of the owners of property fronting on the street.

C. C. Benson, the owner of considerable property in district 17, informed the trustees that if the same specifications would be accepted in that portion of town he would present a petition at the next meeting for the improvement of Hamilton street from East Bradford to East Fuller byprivate contract. He was told to go ahead with his petition.

Trustee Sampson presented five bids for installing a heating system for the city hall. The contract was awarded to Fisher & Wolf, at a cost of$320. This does not include the boiler, the council deciding to accept the offer of the United Gas and Electric Company to install a gas heated boiler on trial.

Chairman Merrill presented a report from Trustee Brown of the finance committee recommnding the appointment of Expert Accountant Kidd of Burlingame to make the an nual examination of the books of the city officials, the expense to be $10 per day. The recommendation was approved.

At the suggestion of City Electrician Werder the clerk was directed to notify the Gamewell Fire Alarm Company to sent an expert to examine the city fire alarm system, which has failed to work satisfactorily.

On motion of Trustee Sampson the selection of furniture for the new city hall was referred to Trustees Merrill and Beeger.

Street Superintendent J. C. Dickey was given authority to purchase three cars of crushed rock for the purpose aof making temporary repairs to the streets.

Demartini appeared before the council in answer to a summons and entered a plea of guilty to the charge of keeping his saloon open later than permitted by law, preferred by Night Police Officer McGlynn. Promising to obey the law in the future he asked for leniency, and on motion of Trustee Sampson his plea was laid over until the next meeting in order that the committee on public morals might have an opporutnity to consider the circumstances.

The usual list of monthly claims against the city were allowed.

PASSOR'S RESIGNATION IS ACCEPTED BY CHURCH

The members of the Congregational church accepted the resignation of Rev. Charles C. Kirtland at a business meeting of the church Thursday night. Mr. Kirtland was asked to withdraw his resignation but felt that he desired a change, whereupon it was suggested that he take a prolonged vacation. He could not see his way clear to accept this proposition so the resignation was acted upon and it will take effect February 1, 1912.

Mr. Kirtland will, on the above date, have served the local parish for eight years. During that time the church has grown in numbers and has enjoyed an era of prosperity. As pastor, Mr. Kirtland has had calls to many of the homes in this community where there was sickness and death and he has made a large number of friends who are very sorry to see him leave Redwood.

Mr. Kirtland's plan is to get "back to the farm" for about one year after which he will re-enter the ministry.

For forty years Mr. Mason had resided in California for almost a score of years was a prosperous orhardist on his ranch in Green Valley near Watsonville. After earning a neat little fortune he retired from actice work and settled in Santa Cruz to enjoy life, and it is unfortunate that he should have been called at this time, when a happy and quiet life seemed his to enjoy with his family. The deceased was a man of integrity and noble character and the whole community in which he so long resided is made to suffer his loss. He was interred at Watsonville last Sunday, November 19th. Mr. Miles Duff is the father of Dan Duff, who was for many years in the employ of Duff & Doyle and who was well known in Menlo. Mr. Thomas Duff's son, Jack is also familiar to Menlo people, he having gone to Alaska from this place with Thomas Maloney and the late Thomas Kelly. The two brothers are delighted with their trip and are very favorably impressed with California, especially with San Francisco and the peninsula, with which country Mr. Miles Duff was very familiar as a pioneer here in the early fifties.

When young McCarthy grew to manhood and came to California he declared that he would one day send for her and make her his bride. The marriage this evening will be the fulfillment of that promise made years ago. Mr. McCarthy has prepared a cosy home for his bride, having rented the Nunn cottage which he has nicely furnished. Even the portions of San Mateo county adjacent to San Francisco fail to take kindly to the annexation proposition. The board of trustees of Daly City have suggested to the people of that town the advisability of withholding their signatures from annexation petitions, evidently failing to see the benefit to accrue from being swollowed up by the greedy metropolis.

Seemingly the frequently agitated proposition for the division of San Mateo school district is not to be downed. At a recent meeting of the Burlingame city council a resolution was presented favoring the formationi of a seperate district for that city. It was contended by the Burlingame people that the creation of a seperate district will involve less taxation than the issuance of bonds of a joint district for the necessary new buildings in that part of the present district. While the resolution has not been adopted by the council the question has not been aadopted by the council the question has zbeen referred to a public meeting.

Mr. Schwartz was known for his honesty and integrity and was respected by a wide circle of friends, both in this county and San Francisco.

To our Friends and Patrons:

In justice to our customers, as well as our selves, we have decided to change our name from the McKibben-Beal Company to the Palo Alto Furniture Company. As neither Mr. Beal nor Mr. McKibben has any interest in the business the title is misleading. This we wish to rectify by the above change.

We sincerely hope that the present management is entirely satisfactory to all of our customers. We shall endeavor. with your help, to make the Palo Alto Furniture Company the most talked-of furniture house on the coast in the matter of low prices and courteous treatment. If you find we are right, tell your friends about us and we will have them for our friends also.

We thank you for past patronage, which we wish may continue.

Yours respectfully,

Southern Pacific Boosts California as Home State.

"California has room for every man who will work."

"Charley" Fee, Californian first and passenger traffic manager of the Southern Pacific railroad company second, thus summarized the need of California in a recent conversation with a group of business men of the state. Advancement of the interests of the land of sunshine and dollars to the pinnacle among the other states of the nation to which she is properly entitled was the subject that had brought the men together.

"Development of the community spirit among the people of the state until they present one solid front is needed to secure the best results," said Mr. Fee, "and that is what we all must strive to bring about. We men of the Southern Pacific have learned, as have thousands of others in California, that advertising is the best way to secure men of brains and brawn, who have a little capital, to come here and settle, and we also have discovered that one of the best ways to advertise for the right sort of men is at the Land shows like those held in Chicago and Omaha.

"The results obtained at these expositions last year are sending us back there this fall, and we want to take California with us. Not as she went last year, in scattered communities, but as a united state. We have proved the results to be obtained, now we intend to reap the harvest, and California will reap it with us. The railroad will be represented with lecture halls, where we will set forth by lecturers and by movir picture and stereopticon the advantages to be gained from a residence here.

Psychological Time is at Hand.

"The people of California and the men of the Southern Pacific have had their misunderstandings in the past. Some of our moves have been criticised, but time has shown that wnat was done was for the permanent good of the state. To-day, I am glad to say that there is a better spirit shown on both sides. Now is the psychological time to get together for the interests of all.

"I am a Californian first and a Southern Pacific man second My home is here; and it is highly gratifying to me that Californians are coming to a realization of the fact that the Southern Pacific has the state's best interests at heart. California has produced the greatest railroad men in the world. She has sent them to the East and other parts of the West, and they have made good wherever they have gone. They have built roads where other men have said roads could not be built.

First to Search World for Men.

"Our railroad was the first to send its agents to Europe to seek out the best men and bring them to California to make their homes. We brought winegrowers that planted vineyards and helped build up the great grape industry of the state. We brought fruit growers and other tillers of the soil.

"A conservative estimate of the number of families we have brought into California is over 250,000," said Mr. Fee. "Government statistics show that each family is worth $3,000 to the commonwealth in which it resides. That means that we have added from this source alone $750,000,000 to the state's resources, because these were permanent residents.

Railroad Increases Land Values.

"There are in this state millions of acres of land that will grow just as bountiful crops as any land in the state, but there is lack of people to thoroughly till the soil. The lands of California that to-day are worth as high as $1,000 an acre were not worth more than $5 a comparatively few years ago. It is the railroads and the speedy transportation that they give, together with increasing population, that have increased their value. The people of California are coming to realize that this is true, and that the partnership that exists between its people and its railroads is really a close one, and that co-operation is needed to obtain the best results.

"When the double tracking now being done by the Southern Pacific railroad is completed we will have the longest stretch of double track of any railroad in the world," continued Mr. Fee, "and it will give to California practically express service for all their freight to the east. Our lines in the state radiate in many directions, and we are thus enabled to bring the furthermost parts of the commonwealth into close to with the great markets not only of California but of the east and the world.

"Therefore it is up to all of us Californians, whether railroad men, merchants, manufactnrers, horticulturists or farmers, to get together. We must establish this community spirit that already is securing a hold, and we must establish it so firmly that nothing can disrupt it.

Community Spirit Was Lacking.

"At the last land show in Chicago California was not adequately represented because the state as a whole had not awakened to the significance of such exhibitions. Many counties had exhibits and mighty fine ones, but there was no spirit of unity. And yet on California day the people of Chicago forced their way into the big Coliseum, where the United States Land and Irrigation Exposition was holding this exhibit and clamored for a sight of the wonderful products. It was the biggest day of the two weeks, and the carload of fruit given away was one of the best advertisements the state ever had.

"When the Southern Pacific saw that the movement to tell that part of the East what California was doing had not taken hold as it should we turned in to remedy it by undertaking to cement the whole state display with a general exhibit supported by lectures on California illustrated by stereopticon slides and motion pictures. True, that was a big advertisement for the Southern Pacific, but it was a bigger one for the state.

"This year the manner of exhibiting should be changed. We want the state as a whole to come in. We want every town and every community from Del Norte to San Diego to come with us. If those who take exhibit space will send their exhibits to me I will see that they are carried free of all charges to Chicago. We would like to do more, but cannot because of the restrictions of the interstate commerce law.

"It makes no difference whether these exhibits come from communities along our line or not we will handle them free. We are for the state as a whole and we want to see it prosper.

Interests Same as Those of State.

"There is a very natural reason for this. Our interests are identical with those of every person in the state. In the prosperity of California and Californians lies our prosperity. Of course we increase our business, but it is only by increasing the business of the people of California that we can increase ours. Our property is here just as is that of other men and women. Many of our stockholders live here. We want all California to prosper because we are Californians. The man who owns a two-room cottage and makes his home there with his family is no more interested than we, for we pay taxes just as he does, so it is only natural that we want the state to prosper.

"We have for years been actively furthering the interests of California by far-reaching advertising campaigns throughout the East and abroad. Millions of pieces of literature have been placed in the hands of interested people and thousands of pictures have been hung in conspicuous places throughout the country. Photographs are printed in great numbers for use in illustrating special articles about California. We are at the present time supplementing and emphasizing our other advertising work by keeping a corps of lecturers constantly in the field. Such special occasions as these offer communities along our line a splendid opportunity to gather up the results of the work we have done and the interest we have aroused. I cannot too strongly urge the fact that every community wanting new residents and hastened development should have specific and energetic representation at the Chicago Land Show.

"Let us get together, pool our resources and tell the world in convincing fashion what we have. Our lecture halls at the land show will be thrown open to California communities free of all cost. Back your lecturers up with moving picture films and stereopticon views and you will be surprised at the results. Last year 77,000 persons heard our lectures. This year 100,000 will listen.

"Every business man in California should have on his stationery the line 'California has room for the man who will work.' Make that our slogan and pound it into every man we can reach. Then get together with the Southern Pacific and show what team work between real Californians can do and we will people the state with men and women that will be a credit to us, add to our own as well as their wealth and help boost California to the topmost round on the ladder of success."

CURE YOUR KIDNEYS

Do Not Endanger Life When a Redwood City Citizen Shows You the Cure.

Why will people continue to suffer the agonies of kidney complaint, backache, urinary disorders, lameness headaches, languor, why allow themselves to become chronic invalids, when a tested remedy is offered them?

Doan's Kidney Pills is the remedy to use, because it gives to the kidneys the help they need to preform their work.

If you have any, even one, of the symptoms of kidney diseases, cure yourself now before dropsy or Bright's disease sets in. Read this Redwood City testimony:

Mrs. Isabel Ramirez, 109 Heller St., Redwood City, Calif., says: "My back was weak and painful and I felt tired and devoid of ambition. Hearing Doan's Kidney Pills highly spoken of, I was induced to try them and they proved to be just the remedy my system required. The pain and lameness which had bothered me so greatly disappeared and a kidney weakness was also corrected. I am grateful for what Doan's Kidney Pills have done for me.,,
